SUMMARY

Computer Science student passionate about software development and problem-solving. Skilled in Java, Python, JavaScript, React.js, and database fundamentals with hands-on experience through projects and internships. Interested in building scalable applications and continuously improving development skills.

EDUCATION

- Siddhartha Institute of Engineering and Technology** Aug 2023 – Aug 2027 (expected)
Bachelor Of Technology In Computer Science – CGPA : 8.87
- Telangana State Model Junior College** June 2021 – March 2023
Telangana State Board of Intermediate Education (TSBIE) – marks: 945
- Telangana State Model High School** June 2015 – May 2021
Telangana Board of Secondary Education – CGPA : 10.0

EXPERIENCE

MESH Externship - FactSet

(May- Present) 2026

- Acquired practical knowledge of Python, Cloud Computing, FastAPI, databases, and AI-driven enterprise technologies through hands-on learning sessions.
- Explored the role of AI in financial technology solutions and gained exposure to modern software development practices.
- Enhanced professional communication, resume writing, networking, and interpersonal skills through executive interactions and collaborative discussions.

BLOCKCHAIN INTERN | ARTHACHAIN (ONLINE)

(July 2025 – Oct 2025)

- Learned core blockchain concepts including smart contracts, Web3 basics, and decentralized systems.
- Completed guided tasks and practical exercises to understand real-world blockchain workflows.
- Built a mini-project CertiChain, a blockchain-based certificate verification system demonstrating secure and tamper-proof record storage.

PROJECTS

1. Watercan Delivery Management System

- WaterCan Delivery Management System** is a full-stack web application for managing **water can orders, deliveries, and tracking** between users and vendors.
- It supports **role-based authentication (User/Owner)**, order placement, real-time **delivery status tracking**, and secure login using JWT.
- Built using **Next.js, Node.js, Express, PostgreSQL, Prisma, and Socket.IO** with a responsive dashboard. Designed to streamline local water delivery operations with efficient order and delivery management.

2. CertiChain – Blockchain Certificate Verification (Team Project)

- Developed **CertiChain v3**, a full-stack decentralized application for secure **digital certificate storage and verification** using blockchain.
- Implemented **smart contracts in Solidity** (Sepolia testnet) with **role-based access** for issuers and users.
- Integrated **IPFS (Pinata)** for decentralized document storage and tamper-proof verification.
- Built the frontend using **React, Wagmi, Viem, and Web3Modal** with multi-wallet support.
- Deployed the application on **Vercel**, enabling public credential verification via wallet address.

CERTIFICATES

- Programming in Java — NPTEL
- Python for Data Science — NPTEL
- Campus Ambassador — SmartED (2025)

TECHNICAL SKILLS

- Languages: C, Java, Python, JavaScript
- Frontend: HTML, CSS, React.js
- Backend: FastAPI
- Database : SQL
- Tools & Platforms: VS Code, Git, GitHub
- CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS

ACHIEVEMENTS

- Won 1st Prize in *Technical Quiz and Code Debugging* at SIDDHAHASTHA 2K25 (National Level Technical Symposium)
- Secured 2nd Prize in *Code Debugging* at SIDDHAHASTHA 2K26

LEADERSHIP & ACTIVITIES

- Participated in collaborative CSR and team-building activities during FactSet MESH Externship.
- Engaged in professional networking and communication sessions with industry mentors.
